

Monitoring 2016 Survey

Are you in control?

PwC introduces a Monitoring 2016 survey which is primarily addressed to the public companies in Finland. You are most welcome to participate the survey. The results will be presented in the PwC Control Forum on 26 May 2016. This is a golden opportunity to benchmark your monitoring processes!

Key content of the survey

The survey takes some 10-15 minutes to fill in. It consists of four main categories: background and company profile, internal control maturity, monitoring activities, and forward looking thoughts on internal control and monitoring activities development.

The survey focuses on the types of monitoring and related roles and responsibilities.

Who could participate?

Our primary objective is to survey monitoring processes in the Finnish public companies and the trends for the next years but we also invite other non-listed larger companies to the survey. The survey will be a good opportunity to benchmark your current monitoring processes with the peer companies.

Survey time and results

The survey will be open until Friday 20 May 2016.

The results will be presented in the PwC Control Forum in Thursday 26 May 2016 at the PwC Helsinki office.

A webcast for any questions and answers will be held on Wednesday 11 May 2016 at 15.00. The link for webcast and dial-in details are published in the Monitoring 2016 PwC web site.

Thank you for your efforts!
